

# DISTRIBUTED PRODUCTS

Statco-DSI represents over one hundred manufacturers in the food, beverage, dairy and biopharm industries. Whether you need an entire system or to expand an existing line, let us link your good name with the best names in the sanitary processing industry.

**STATCO-DSI:** Skidded process and CIP systems, blending and mixing systems, bottle casers, valve manifolds, pump carts, flow panels, hot sets, homogenizer and filler service

**AGC:** ProFlow Series™ plate heat exchanger, plates, re-gasketing, re-streaming, field leak checks

**FRISTAM:** Centrifugal, positive, and liquid ring, and multiple-stage high-pressure pumps; shear blending pumps and blending systems

**ALFA LAVAL, G&H, TRI-CLOVER, CONTHERM:** Centrifugal and positive displacement pumps, single seat, mix-proof, butterfly, ball, plug, air relief, fractional and check valves; fittings, tubular and spiral heat exchangers, contherms and flow meters

**PENTAIR SUDMO:** Single seat & aseptic, mix-proof, PMO mix-proof, butterfly and ball valves

**TETRA PAK:** High pressure pumps, homogenizers, heat exchangers, separators

**VNE:** Stainless steel fittings, valves and specialty related products

**ANDERSON-NEGELE:** Level, temperature, pressure and flow sensors; recorders, controllers, HTST legal instruments, positive displacement, magnetic flow, turbine and mass flow meters

Sanitary centrifugal and positive displacement pumps

High-pressure pumps, homogenizers

Precision 304 and 316 stainless steel and specialty alloy tubing products

Homogenizers, parts and service

Piston pumps, diaphragm pumps, drum unloading systems

Sanitary gaskets, hoses and components

Ultraviolet purification and disinfection systems

Lubricating spray

CIP systems, COP tanks, inline strainers, spray balls, cabinet washers, rinse/foam/sanitize units

Magnetic separation system

Valve and pump rubber component repair

Filters and filter systems

Automatic stack palletizers, unitizers, container and package equipment, case handling conveyor and equipment, case stackers

Corrugated, scrape and plate heat exchangers; piston pumps

Progressive cavity pumps

Condensate purification, dry compressed air, clean compressed air, sterile filters

Sanitary and industrial direct steam injection heaters

Automated fillers

Product analyzers

Weighing systems and load cells for inventory and batching systems

Sanitary and Industrial drum pumps, diaphragm pumps

Bottle filling and capping systems

**Laufer International:** Piggings systems, arc valves

Diaphragm valves, sanitary components

Tanks, silos, vessels and tubular heat exchangers

Double diaphragm pumps and drum unloading systems

Sanitary, food, transfer and washdown hoses, hose accessories and fittings, nozzles and mixing stations

Tank cleaning equipment, spray nozzles and Toftejorg rotary jet nozzles

Sanitary progressive cavity pumps, drum and pail unloading systems

Silicone, poly, EPDM, rubber and specialty reinforced hoses, hose assemblies, adapters, sight flow indicators

Ozone generators

## VALVES & PARTS

APV  
Bradford  
Cipriani
